City of Trees

GROWING MORE TREES
FOR GREATER MANCHESTER

City of Trees

City of Trees is a movement that aims to transform the landscape and quality of life for people across Greater Manchester

More trees please!

3 million trees
(as a starter)

Look after our urban forest

Citizen Foresters
6000 volunteer hours last year

Nurture a tree culture

Nature connectedness
Nature-based solutions and
interventions

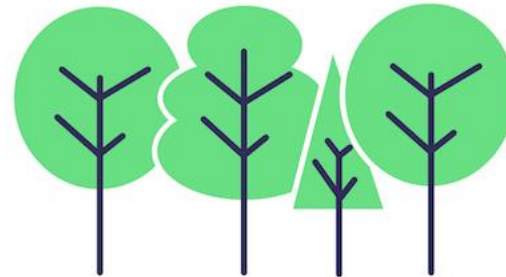

A new Northern Forest

25 years

50m trees

The Northern Forest

City of Trees is the Greater Manchester part of the Northern Forest, a 25-year vision to plant 50 million trees across the North of England, stretching from Liverpool to Hull.

Using the findings from GHIA

- Grow the evidence base for the need for trees
- *All Our Trees: Tree & Woodland Strategy for Greater Manchester*
- Universal & multifunctional design of greenspaces
- Engagement

Supporting Citizen Forester

Increased understanding:

- Challenges to volunteering
- Role of champions
- Impact of life transitions

Greater awareness:

- The need to enrich the experience

More evidence

- Benefits of access to greenspace
- Social benefits of volunteering
- Greater the interaction can lead to enhanced wellbeing

Thank you
